Red Ragtops...out-RA-geous! Can you name the generations?

A Worthwhile Endeavor!

SCENTS FOR SOLDIERS

On Friday, 5/23, five cars and six members from the The Club met a bus-load of US Wounded Warriors from Walter Reed Army Hospital (DC) at the SC Welcome Center on US 17. We escorted them to their welcome dinner at the old train station in Myrtle Beach. We had the privilege of providing rides for four of the soldiers and had a great time chatting with them! The afternoon started with a rain shower but it blew over quickly. With high hopes, and two rag tops open to the sky, we motored off to our resort-by-the-sea. Guess what blew back in on the way south? Yep, another front, worse than the first, caught two of us on the open road with an open top and a passenger. The C7 just slowed down to 30 to put the top up...the C6 had to stop completely and then play Gran Prix Race to catch up with the pack. The E5 riding in the C6 got quite a thrill.
