Identify these Corvette tail lights by generation and/or by year.

Answers in the next issue!

May Meeting

On 5/11, 22 folks (including several new members) met at Sam Snead's Restaurant on Rt. 501. The meeting was held on Monday this month to avoid Mothers' Day (5/10). Only 4 Corvettes were driven due to the "threat" of rain (it was not raining at the time of the meeting, nor did it rain before everyone got home...OK, it *was* wet). Pat shared the good news that Coastal Chevy has decided to sponsor us again and their check has arrived...hooray! Announcements were made about Jason's House starting in June and our Car Show in August...check the website for minutes and details. Good food, good talk, and a good time were had by all!

Everyone seems to enjoy the food and the ambience of Sam Snead's, but if you know of a different place to meet that gives us the same type of accommodations (nice, private room + "early bird" menu), please pass the suggestion along to Pat. We're always looking for different places to meet!

Cars & Coffee

On May 3rd, 40 cars showed up for coffee and “car-talk” at Benjamin’s Bagels in the Carolina Forest shopping center. Corvettes were well represented but there were other interesting vehicles present. Check out the cars on a beautiful Sunday morning! Thanks for the pics, Pat!
