June Activity - Hobcaw Tour

On 6/13, 22 members caravanned to Hobcaw Barony for a tour of the property. Hobcaw is the former winter residence of Bernard Baruch, native South Carolinian and wealthy financier, and his family. They used the former rice plantations and house as a hunting lodge and entertained guests and famous folks (eg., Winston Churchill and FDR) until 1956. Hobcaw is now managed by the Belle Baruch Foundation for scientific and historical research and has been saved from development in perpetuity (we hope!). Many members had not been on the property before today.

June Meeting - Hog Heaven

After spending an interesting 2 hours at Hobcaw, the group motored up US 17 a few miles to *Hog Heaven*. This local eatery offers the best in local cuisine...fried chicken, BBQ, Chicken Bog, and lots of fresh vegetables, served in an all-you-can-eat format. And, after our June meeting, we certainly did justice to the setting! Hopefully this will be a venue for some future meetings as the locale, price, and free meeting room are just what we've been looking for. During the meeting Pat emphasized Jason's House and the Car Show (August 1st in Surfside Beach). Please check the website for meeting minutes and details of all business.
